

Applied Agentic AI Transformation

Design agents that improve work while keeping people in control.

DURATION	8 weeks
COMMITMENT	5-6 hours/week
FORMAT	Live online + guided project work
LEVEL	Professional

PROGRAMME OVERVIEW

Who this programme is for

Transformation leaders, product teams, operations leaders, AI practitioners, and innovation teams.

What participants will be able to do

- Recognise appropriate agent opportunities and limits
- Map agents to processes, systems, tools, and human checkpoints
- Define security, testing, evaluation, and governance controls
- Create an implementation roadmap and success measures

Learning journey

- 01 Generative AI and agent foundations
- 02 Agent patterns and connected digital ecosystems
- 03 Workflow design, integration, and user experience
- 04 Security, governance, testing, and compliance
- 05 Capstone: an agentic AI transformation blueprint
