

AI Deployment Engineering

Turn proven prototypes into reliable enterprise AI.

DURATION	12 weeks
COMMITMENT	8-10 hours/week
FORMAT	Live online + build sprints
LEVEL	Advanced

PROGRAMME OVERVIEW

Who this programme is for

Software engineers, solution architects, data engineers, implementation teams, and technical consultants.

What participants will be able to do

- Translate business workflows into deployable AI use cases
- Integrate RAG, agents, APIs, and enterprise systems
- Design security, observability, evaluation, and guardrails
- Measure adoption, performance, and business outcomes

Learning journey

- 01 Discovery and workflow mapping
- 02 Data, APIs, retrieval, and agent patterns
- 03 Integration and deployment architecture
- 04 Evaluation, security, governance, and monitoring
- 05 Production capstone: an enterprise AI delivery plan
